DIRECTORS OF DOD FIELD ACTIVITIES

SUBJECT: Continuing Implementation of the Reform of the Military Health System

This memorandum directs the continued implementation of the Military Health System (MHS) organizational reform required by 10 U.S.C. § 1073c, and sections 711 and 712 of the John S. McCain National Defense Authorization Act (NDAA) for Fiscal Year (FY) 2019. The DoD policy for this reform is guided by the goals of improved readiness, better health, better care, and lower cost. The Department will advance these objectives through specific organizational reforms directed by Congress and the continued direction of the Secretary of Defense and the National Defense Strategy.

These organizational reforms will be executed initially through Direct Support agreements entered into between the Defense Health Agency (DHA) and each Military Department. These agreements will ensure that operation of the MHS continues in an efficient and effective manner during the transition of capability and resources from the Military Departments to the DHA. The DHA will establish its headquarters and market management capabilities through a conditions-based approach that will require it to meet clear, objective conditions that demonstrate the DHA's capability and capacity for management of Military Medical Treatment Facilities (MTFs) and Dental Treatment Facilities (DTFs). The MHS Executive Review will continue to execute the transition governance structure through the Senior Transition Leadership Team (STLT).

The STLT will oversee DHA's progress toward meeting the transition conditions under the Direct Support framework and will make recommendations, as necessary, to ensure the Department meets transition plan goals and milestones.

OSD011505-19/CMD014116-19

Effective the date of signature on this memorandum, the Department will take the next significant steps toward making the DHA responsible for the management and administration of all MTFs/DTFs. To accomplish these important Department objectives, I direct the following:

- Effective the date of signature on this memorandum, authority, direction, and control over the CONUS-based MTFs and DTFs, along with those in Alaska, Hawaii, and Puerto Rico, will transfer from the Military Departments to the DHA. The management of these MTFs and DTFs during FY 2020 will be executed through Direct Support agreements currently in effect between the DHA and each Military Department and will ensure that operation of the MHS continues in an efficient and effective manner during the transition of capability and resources from the Military Departments to the DHA.
- In FYs 2020 and 2021, the DHA will mature its headquarters and market management structure through a conditions-based approach that will establish and meet clear, objective conditions that demonstrate the DHA's capability and capacity for management of MTFs. The DHA will establish and meet conditions for MTFs that transferred to their authority, direction, and control on October 1, 2018, before establishing additional market offices or ending Direct Support for MTFs and DTFs listed in the attachment.
- Not later than February 1, 2020, the Under Secretary of Defense for Personnel and Readiness (USD(P&R)) will submit an update to me on the progress of the MHS transition and an updated implementation plan incorporating any new or revised legal requirements set forth in the NDAA for FY 2020. This updated plan will include the conditions based milestones and anticipated timeline to transition all functions and capability for the administration and management of MTFs and DTFs from the Military Departments to the DHA, and shall ensure statutory compliance.
- The Assistant Secretary of Defense for Health Affairs serves as the resource manager for the Defense Health Program (DHP) appropriation and is responsible for the allocation and reallocation of the funds in the DHP account in accordance with existing DoD Directive 5136.01 and Office of the Secretary of Defense guidance. Any proposed changes to that guidance shall be coordinated with the Under Secretary of Defense (Comptroller)/Chief Financial Officer, and included in the USD(P&R) update not later than February 1, 2020.
- The Chief Management Officer will update DoD Directive 5136.13, "Defense Health Agency (DHA)," consistent with the law and this memorandum, and present it for approval no later than February 1, 2020.

The USD(P&R) is authorized to take other actions as appropriate to implement the law and this memorandum.
