

RADM Bruce L. Gillingham, M.D., CPE, FAOA Surgeon General of the Navy

- The Future of Navy Medicine
 - Well trained **people** working as cohesive teams, on optimized **platforms**, demonstrating high velocity **performance**, that will project medical **power** in support of maritime superiority.
- “We are never content” and will adopt an attitude of “constructive dissatisfaction.”
- Program Directors and Specialty Leaders play a vital role in helping to drive the message.
